WHAT IS CBC TOKEN?

- CBC Token is an utility token created in Binancesmart chain which is a BEP20 token that can be used for staking, payments, exchanging value and services.
- CBC Token will be used as payment, faciliator, initiator and executor in all services that are implemented into the CBC token eco system.
- This creates a natural high demand from the date of release increasing the value through limitation of supply.
- CBC token is a open-source blockchain token, Capable of running smart contract and creating digital assets.
- CBC Token maximum supply 210000000
